

Product information sheet

DREEN® Texture 60x60x5

GENERAL INFORMATION

Dreen® Texture is a hydraulically pressed concrete slab with a textured finish. There are four different colours available. Together with the fixplate lock system, developed specifically for flat roofs, it will create a smooth and dry surface. The system ensures the slabs are always stable and locked in place, but they can also be dismantled. The fixplate lock adjustable pedestal system is suitable for elevated rooftop terraces and a special edge zone system supports the slabs near walls or other raised elements.

PRODUCT SPECIFICATION

Size length	600 mm (+/- 2 mm)
Size width	600 mm (+/- 2 mm)
Size thickness	50 mm (+/- 2 mm)
Diagonal deviation	2 mm on < 850mm & 4mm > 850mm
Bending strength	5 N/mm ²
Abrasion Resistance (wide wheel test)	Class 4 - < 20mm (wide wheel abrasion test)
Polished Slip Resistance Value (USRV)	Potential for slip – low (dry & wet)
Total Water Absorption	Class 2 - < 6.0 as a percentage by mass
Freeze/ Thaw Resistance	Class 3 - < 1.0 as a mean with no individual result value > 1.5
Manufactured and tested to	BS EN 1339:2003
